Opening hours: Tue to Fri 3-6pm, Sat/Sun 2-6pm.

Readings: 18th & 19th June 2022 during opening hours

Nature is our source of inspiration. A collaborative installation intoxicates the gallery, focusing on interactions in and with nature. Sharing what touches us with others. A small forest of art. Trees and creatures condense into a frenzy of communication. The individual works move closer together for this purpose. The viewers should feel enclosed, embraced by the works and stand in the middle of them. Together we are louder than individually. Each artist adds her own artistic language to a new overall expression.

Mycelia continues online

MICĒLIJA exhibition in Daugavpils, Latvia may be over, but you can still see it online

A key part of MICĒLIJA is collaboration between women artists across borders. This extended to performances within the installations inside and outside during the show. During the show I did a long distance collaboration with Dārta Stašāne, musician and flautist, to create a musical performance responding to my *"Wishing on the Wind"* installation. Dārta created a poetic composition which she performed within and around the sculpture that included audience participation

as they rattled and scraped the ceramic pieces of the installation. You can hear and see it in the film by Otto Klavins on my website showing all the [performances](#) and which has an overly of Dārta's music.

If you are interested to know more about how the MICĒLIJA project developed and the processes we used, a short interview with me is available in English on the Mark Rothko Art Centre webpage as part of their [Let's Talk Art](#) film series.

Given all the Corona restrictions, we are very happy we had over 3300 visitors to our exhibition over ten weeks.

The project was supported by by the Goethe Institute, ifa (Institut für Auslandsbeziehungen) and the Kulturreferat in Munich.
