Workshop Report

Risograph Workshop with American Students

The Risograph machine got cranked up in a big way this month!

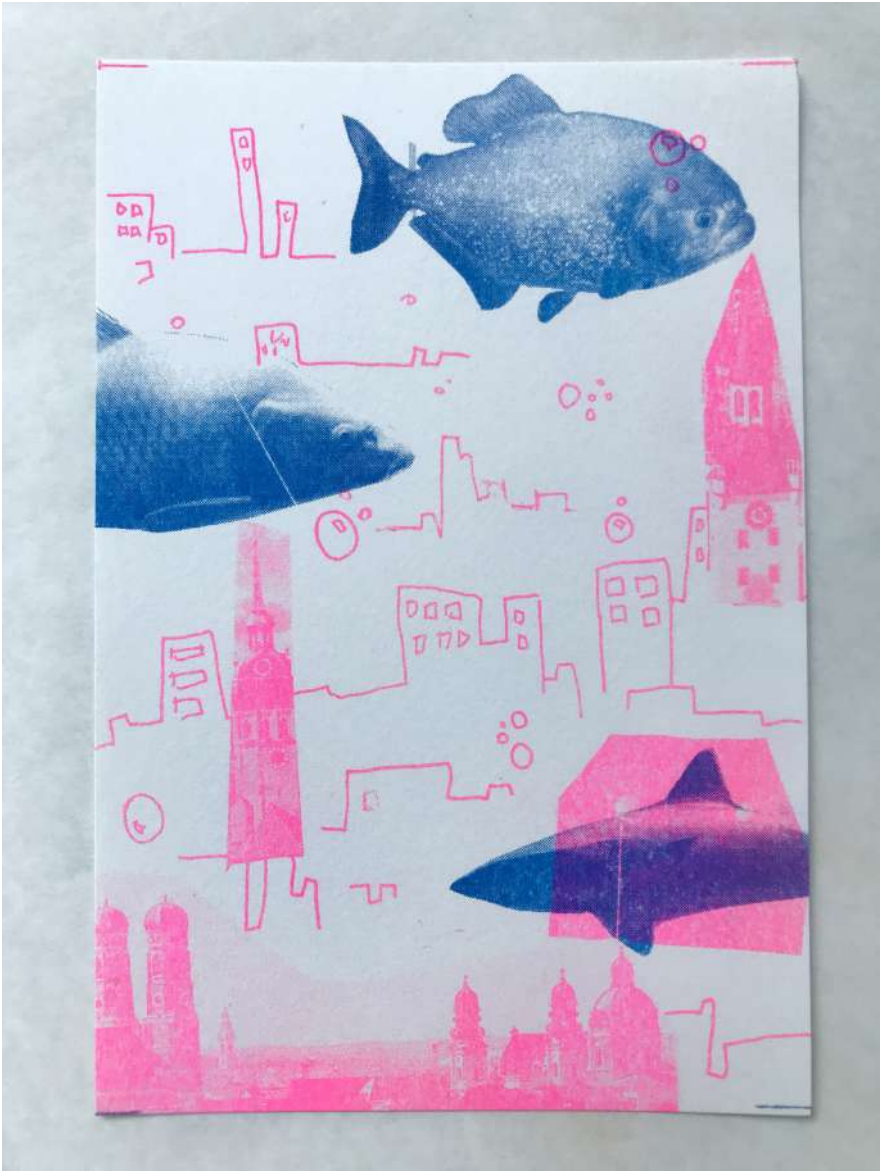

A big group of students Santa Barbara City College came to my studio to learn about Risography and how to make a two-colour design. Over the course of an afternoon the two groups developed designs reflecting their journey through Europe and their time in Munich. We made postcards so that the group could swap and share images, and at the same time create a visual story about their trip.

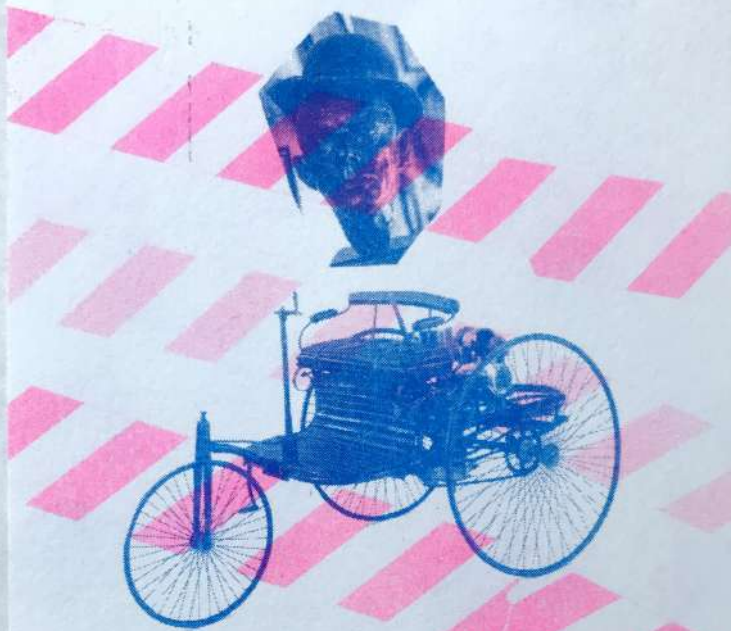

Rather than writing too much I prefer to show some of the workshop highlights.
